

Ian FAYE

Member of the Clean Hydrogen Partnership Governing Board

Director for Public Funding for the operational divisions of Power Solutions & Electrified Motion, Robert Bosch GmbH

Delegate to the 2Zero Partnership Board and co-lead for the topic of vehicle technologies including fuel cell integration.

Co-Chair for the CLEPA Energy and Environment Expert Group

Member of the FVA E-Motive Board

Chair of the FAV Working Group for Power Electronics

Ian Faye received a B. Sc. In Mechanical Engineering at the University of California Davis and S. M. in Mechanical Engineering at Massachusetts Institute of Technology

He has been working at Bosch in various functions since 1992 including Airbag-Systems, Vehicle Dynamics, Corporate Planning and Alternative Powertrains since 2000. From 2001 to 2008 he was responsible for Bosch fuel cell activities for both automotive and stationary applications including systems and initiating the development of key system components primarily focusing on the balance of plant. He has also served as a Bosch proxy in the German National Platform for Electro-mobility: Working group 1 for power-train technologies, leading cross-corporate team for power electronics.
